Re: Docket No: 98N-1038, Irradiation in Production, Processing
and Handling of Food

To whom it may concern:

& grandmother -

I am an American citizen, consumer, wife and mother. I am
responsible for my family's health.

I expect the FDA to retain the current labelling law (with
current "irradiation" terminology & current symbol and to make
all information prominently visible on front of packaging and
on posters by fresh produce and all animal products.)

I also expect this essential consumer information to continue
(with no termination) since new consumers are an ongoing part
of our society.

I do not want my family to unknowingly eat irradiated food,
and I fully expect the U.S. government to preserve my freedom
of choice.

Mrs Marjorie Tresemer

320 Walnut St

Osage Ia. 50461-1142

*Irradiated foods ??? what's next?
May as well go back to the olden
days, using meat from improper
methods. just as poisonous to our
bodies. Please do not use it. We
are not guinea pigs -*
